## Inca Grey Bounty

**Sire: The Chief of Bozedown**

**Prize-winning grey male (SWAG Champion, Futurity Reserve Champion).**

**Very uniform, silver grey from two grey parents (sire - The Chief of Bozedown).**

**He was 20.3 microns at age 2 (SD 4.78, CF 96.1) and his 2014 statistics show him to be a very respectable 26.5 microns (at 7 years of age).**

**His progeny have typically inherited his placid temperament, true to type head, good fleece coverage, density and character. And they are doing well in the show ring – prizes include two reserve champions at Devon County, several 1<sup>st</sup>/2<sup>nd</sup> places at Bath & West and some good placings at the SWAG Autumn Show.**

## Rosecraddoc Brogan

**Sire: Cedar House Long John**

**Stunning Rose Grey male with what Cathy Lloyd described as an “advanced fleece”. His fleece is bright and has the most beautiful handle with a high frequency crimp which extends right up to his head**

**His first fleece statistics confirm the quality with MFD 16.1 microns, SD 3.6 and Comfort Factor of 100%! And his 2014 statistics still show him to be under 20 microns.**

**He is the culmination of our grey breeding programme thus far. His sire is Cedar House Long John – the only grey to have ever beaten Nyetimber in the show ring – and his dam is our own grey female, Rosecraddoc Allis who also has an impressive show record.**

**He has a proven show record himself winning Champion Grey Male at the 2103 CCA Show, 1<sup>st</sup> place as both Junior Grey Male and the following year, Intermediate Grey Male at Devon County Show, etc.**

**He is an absolute gentleman and now available for drive-by and mobile matings.**

## Inca Dominos Dream

**Sire: Canchones Witness of Inca**

**Very rare, well bred Harlequin Grey**

**This is extreme appaloosa genetics (true leopard markings of small black spots on a golden fawn background which blends with age to a harlequin grey/roan effect)**

**Proven to pass on the leopard gene, with his first daughter also being a harlequin.**

**Domino has a very sweet nature and is easy to handle.**
